FOR IMMEDIATE RELEASE

Bliss Tubs Walk-In Tub Rated "Perfect Tub" by Veterans Administration Inspector

Pasadena, CA (October 5, 2012) - Bliss Tubs, a manufacturer and nationwide distributor of quality walk-in bathtubs, has been rated as having a "perfect tub" by an inspector from the Boston Veterans Administration Regional Office. The inspector awarded the rating following the installation of a Bliss Tubs Wheelchair Accessible Tub by Walk-In Tubs of New England and C&A Designs + Construction in a veteran's home.

The VA inspector commented that she had never seen a walk-in tub, nor an installation, that was so flawless. The bathtub, as well as the installation, received the highest score possible in all categories of the inspection. During the inspection, the inspector also noted that they had never before given any walk-in tub, or its installation, a perfect score in all categories. Bliss Tubs, which is owned and operated by a U.S. military veteran, provides quality products and services for U.S. military veterans and the U.S. Department of Veterans Affairs. Bliss Tubs also seeks out U.S. military veterans when employment opportunities arise.

Walk-In Tubs of New England, a Bliss Tubs authorized dealer, is also owned and operated by a U.S. military veteran.

C&A Design + Construction has extensive experience installing walk-in bathtubs throughout the northeast, and is owned and operated by a U.S. military veteran.

Bliss Tubs and its dealer network are proud to aid veterans with service or non service-connected disabilities by providing home improvements necessary for the continuation of treatment, or for disability access to the home and essential lavatory and sanitary facilities.

The company is also on the approved vendor list of the Veterans Administration.

To accommodate U.S. military veterans who need special access for bathing, Bliss Tubs offers models designed specifically for disabled veterans. Compact and full-sized handicapped tubs with outward swinging doors and larger entryways allow users to transfer seamlessly from a wheelchair or stool into their walk-in tub.

The Benefits of a Walk-In Tub

A walk-in tub is one of the best investments for a senior citizen. A walk-in tub can help the mobility-impaired avoid costly and painful slips and falls and stay in their homes longer. Physicians recommend bathing to help alleviate symptoms of arthritis and other conditions and to facilitate a good night's sleep. For more on the health benefits of the walk-in tub, see <http://www.blisstubs.com/benefits.htm>

About Bliss Tubs

Bliss Tubs, which has been manufacturing quality walk-in tubs in its Southern California facility since 2008, is also one of the few walk-in tub manufacturers to achieve an Underwriters Laboratory (UL) certification. All Bliss Walk-In Tubs are constructed out of durable gel-coated fiberglass supported by a sturdy rustproof stainless steel frame. At the customer's option, Bliss Walk-In Tubs incorporate air and water jet massage systems and equipment provided by leading suppliers to the U.S. spa industry.
